

Kentucky Agricultural Development Board

Minutes of the July Board Meeting

The regular meeting of the Kentucky Agricultural Development Board was held on **Friday, July 19, 2002** at **10:00 a.m. CDT**, at the UK Research & Education Center in Princeton, KY. Commissioner Billy Ray Smith, Vice-chairman, presiding, called the meeting to order, and the Secretary called the roll.

Members Present

Commissioner Billy Ray Smith, Vice Chairman; John-Mark Hack, Executive Director; Daniel Case; Larry Clay; Wayne Hunt; Dr. Oran Little designee for Dean Scott Smith; Sam Moore; Eddie Sellers; Mike Slaughter; and Smith Mitchell designee for Secretary Gene Strong.

Members Absent

Governor Paul E. Patton, Chairman; Vickie Yates Brown; Seth Conner; Susan Harkins; Sam Lawson; Willa Poynter

Others Present

Staff - David Bratcher; Gordon Duke; Sandra Gardner, Board Secretary; Jeff Harper; Rhodes Johnston; Kara Keeton; Bill McCloskey; Chauncey Morris; Jeff Mosley; and Stephen Yates; **Guests** – Jared Nelson, Times-Leader; Arthur Dunn; Kelly Case & Family; Representative Roger Thomas; Representative Don Pasley; John Gillig, LRC; Brian McIntire, LRC; Kyle Mullaney, LRC; Representative Tom McKee; Jimmy Doss; Bill Lutz; James Semison; David Brame; Ronald Berry; David Spain; Dave Loney; Belita Adams; Larry Reed; Lela Mitchell; Biff Baker, LRC; Keith Franklin; Representative Adrian Arnold; Brad Muntz; Philip Garnett; David B. Downey; Tim Osburn; Ricky Yeargan; Alysia Robben, CFA

Notification of Media

Commissioner Smith received verification from John-Mark Hack that the media had received notice regarding the Agricultural Development Board meeting.

Welcome

Commissioner Billy Ray Smith welcomed the board and the audience. Commissioner Smith recognized the University of Kentucky (UK) for their hard work on Thursday's Field Day and thanked them for their hospitality today.

Approval of Minutes

The minutes of the June 21, 2002 meeting were approved as presented.

Executive Director's Report

John-Mark Hack, CEO, expressed gratitude to UK for their hospitality. Mr. Hack also noted that the first Kentucky Agricultural Development Board meeting occurred here in this building two years ago.

Mr. Hack introduced Sandra Gardner as the staff member responsible for recording of the Board's minutes.

Mr. Hack mentioned that a table at the Kentucky Farm Bureau Ham Breakfast (8/22) will be reserved for board members and staff. Members and staff interested in participating should notify Mr. Hack.

Commissioner Smith invited everyone to the KY State Fair Commodity Kickoff Breakfast – 7:00 a.m., Thursday, August 15, 2002.

Mr. Hack mentioned that the Governor's Office of Agricultural Policy will have a booth at the State Fair. He invited everyone to visit the booth, which will feature some of the projects funded by the Agricultural Development Fund.

Mr. Hack reviewed each of the items on the Board's meeting agenda.

Wine Study Conference Call

Mr. Hack yielded the floor to David Bratcher, Special Project Analyst for the Governor's Office of Agricultural Policy. Mr. Bratcher led the wine study conference call with Michelle Rowell, representative of Motto Kryla Fisher LLP. *(A copy of the study is enclosed in the official minutes book kept by the Secretary.)*

Ms. Rowell provided a quick overview of why a study of the KY wine industry was undertaken: to find out the current situation and to see if efforts are correlated or fragmented. She also provided a summary of the results of the study: 1) A huge increase in number of vines planted; so much so that there is a possibility of grape surplus and not enough wineries to turn into saleable product; 2) A varying degree of quality among the wineries; 3) Overall, a lack of essential knowledge on both the growers and wine-makers sides. Kentucky needs to take a couple of steps back to the basics; instead of supporting increases in vines planted, education is the best place any funding should be allocated. The way to make sure Kentucky goes down the right path is to make sure the paths of the growers and wine makers converge and that the path is paved by an education and quality standard to build solid brand equity. Ms. Rowell hopes the study did not sound too pessimistic; there is a lot of potential in Kentucky.

Mr. Bratcher called the Board's attention to the chart on page 13 of the study that refers to an anticipated surplus of grapes in 2007.

Ms. Rowell discussed the survey they used and how projections of gallons were made.

Ms. Rowell addressed the question "Why can't surplus grape juice be sold as a commodity?"

Ms. Rowell discussed existing wines from KY wineries. There were many outstanding ones, but the bad wines are a threat to Kentucky's wine industry. The problems with these wines are not subjective; there were technical problems in the wine making (e.g. volatile acidity, filtering) and quality of inputs (grape quality).

Ms. Rowell suggested that there needs to be a quality control system in place. This could begin with a state enologist to assist and improve wine quality standards. She also stated that wineries should not be considered for funding if they do not have a sound education in wine making.

Ms. Rowell spoke to the tourism issue surrounding a developing wine industry. She recommended that wineries become destination centers and cluster themselves and possibly establish themselves in an area with other ancillary industries (e.g. hotels, restaurants). At that point, the best way to expand is to put customers on a mailing list to order directly; however, due to KY law, orders must be placed in person (cannot call the winery to have wine shipped).

Ms. Rowell talked about Bourbon industry and how it relates to the wine industry. If possible, it could be beneficial to center wineries around areas with easy access to distilleries because of cross-over interest.

Ms. Rowell discussed the issue of weather (cold, heat & humidity) and grape varieties (viniferous grapes and hybrids). There is not an ideal grape for Kentucky; certain varieties are more disease and weather resistant than others.

Mr. Bratcher opened the floor to the Board for questions:

How do we discourage folks from growing the less hardy varieties? [Smith Mitchell] State viticulturalist and state enologist working together would help with this by covering grape growing best practices to increase quality. State viticulturalist could guide producers to growing grapes that a winery would buy. Make sure educational resources and "gurus" are available to help growers. To discourage poor quality wine making, Ms. Rowell recommends no state funding go to people not producing quality wine. In addition, she recommends money should not be provided to wine makers that have not studied oenology.

Mr. Bratcher asked Ms. Rowell to address the Grape & Wine Council established by the General Assembly and the role they should play. In her opinion, research activities should not occur within a council. A State Viticulturalist and Oenologist should be housed in an academic setting. The Council's focus should be on marketing, branding, and consumer awareness. They should also play a role in establishing an AVA (American Viticultural Area): adds quality designation. Ms. Rowell pointed out that most successful state councils are comprised of public relations/marketing/advertising people, not wine makers/growers.

Table grape market not addressed, is this a possibility for KY? [Sam Moore] There is a glut in the table grape industry, too. This study was specifically focused on wine grapes (table grapes were beyond the scope of the study). UK has information on this, though.

Mr. Bratcher thanked Ms. Rowell for her time and ended the conference call.

Mr. Hack noted that a number of policy issues/questions have been brought to light. We will be looking into these issues and developing recommendations on how to handle the issues/questions.

Commissioner Smith recognized Dave Loney. Mr. Loney thanked the Board for funding this study and commented to its quality and the information provided. It gives the grape industry a sense of direction and delineates who should deal with problems and what questions should be answered. Mr. Loney complimented Ms. Rowell and the Board's staff.

Mr. Hack added that policy recommendations should be guided by Return on Investment as it related to overall farm economy. The Board's staff will be working with Vinyard Society and other organizations as recommendations are made.

Summary of other Market Studies

Devon Hankins, Strategic Marketing Consultant for the Governor's Office of Agricultural Policy, summarized the structure of the research parameters and the status of the market studies for aquaculture, meat goats & dairy goats.

Ms. Hankins noted that the *Aquaculture RFP* response deadline was July 15. One response was received and is currently under review.

Ms. Hankins mentioned the deadlines for the other RFP responses as follows: Meat goat - July 26; Dairy goat - Aug 2.

Ms. Hankins discussed how each RFP was advertised.

Ms. Hankins summarized the Comprehensive Marketing Initiative:

Regional & state level: Explained the RFI / RFP process; noted that the Vendor Conference was held on July 15 in Louisville, listed agencies represented, explained what occurred and why this path was taken; response date for RFI is August 16; the next phase is to review RFIs and then develop RFP to solicit vendor to do the market research.

Local: pulled out of the actual study; felt we could accomplish this on own; held 3 focus groups across the state facilitated by a 3rd party; focusing on farmers' and roadside markets, Community Supported Agriculture, etc.; we got a feel of their needs; the intent is to develop a program to bring to the board that focuses directly on local marketing.

Referral of July Projects¹

Mr. Hack presented projects A2002-0450 through A2002-0500 for referral to the Board's Project Review Committees. Sam Moore moved that "projects A20020450 through A2002-0500 be referred the Board's Project Review Committees;" Larry Clay seconded the motion. The motion passed without dissent.

¹ A detailed list of the referred projects is attached as Appendix A.

Approval of Model Programs²

Mr. Hack submitted projects A2002-0311 and A2002-0459 as projects meeting the model **Agricultural Diversification Program** guidelines. Mike Slaughter moved that projects A2002-0311 and A2002-0459 be approved as model Agricultural Diversification programs; Eddie Sellers seconded the motion. The motion passed without dissent.

Mr. Hack submitted project A2002-0420 as a project meeting the model **Fallen Animal Disposal** guidelines. Danny Case moved that project A2002-0420 be approved as a model Fallen Animal Disposal program; Wayne Hunt seconded the motion. The motion passed without dissent.

Mr. Hack submitted projects A2002-0418, A2002-0430, A2002-0411, A2002-0417, A2002-0437, A2002-0445, A2002-0407, and A2002-0448 as projects meeting the model **Forage Improvement & Utilization Program** guidelines. Dr. Oran Little moved that projects same be approved as model Forage Improvement & Utilization Programs; Danny Case seconded the motion. The motion passed without dissent.

Mr. Hack submitted project A2002-0444 as a project meeting the model **Genetics Improvement Program** guidelines. Sam Moore moved that project A2002-0444 be approved as a model Cattle Genetics Improvement Program; Larry Clay seconded the motion. The motion passed without dissent.

Mr. Hack submitted projects A2002-0428, A2002-0427, A2002-0402, A2002-0447, A2002-0415, and A2002-0443 as projects meeting the model **Goat Diversification Program** guidelines. Smith Mitchell moved that projects same be approved as model Goat Diversification Programs; Larry Clay seconded the motion. The motion passed without dissent.

Mr. Hack submitted projects A2002-0419, A2002-0451, A2002-0426, A2002-0403, A2002-0295, A2002-0472, A2002-0446, A2002-0483, and A2002-0460 as projects meeting the model **Cattle Handling Facilities Program** guidelines. Danny Case moved that projects same be approved as model Cattle Handling Facilities Programs; Mike Slaughter seconded the motion. The motion passed without dissent.

Committee Reports

Blue Project Review Committee

Smith Mitchell reported for the Blue Project Review Committee (PRC). Mr. Mitchell noted that the Blue PRC is presenting two projects for funding consideration.

Mr. Mitchell presented application **A2002-0401**. The project received a high priority from Livingston County. The applicant, **Livingston Central High Agriculture**, requests \$1,300

² A detailed list of projects funded under each model program category is attached as Appendix B.

county and \$1,300 state Phase I Funds. Funds will be used to purchase a livestock trailer for the FFA students to transport livestock to shows, markets, contests and other events. Mr. Mitchell moved that project A2002-0401 be approved for \$1,300 in Livingston County funds only; Mike Slaughter seconded the motion. The motion passed without dissent.

Mr. Mitchell presented application **A2002-0422**. The project received a high priority from Jessamine County. The applicant, **the Jessamine County Fiscal Court**, requests \$85,000 of county Phase I Funds. Funds will help establish a learning center for farmers in Jessamine County. This facility will be used strictly for educational purposes and the focus is the enhancement of agriculture in Jessamine County. The facility is designed to host a variety of educational programs for farmers and farm families. The goal of this type of a facility is to bring together representatives from the farming community and organizations dedicated to helping farmers develop agricultural enterprises, which may offset the loss in tobacco income. This facility will also include a certified kitchen that will enable local producers to add value to their products. Mr. Mitchell reviewed the terms and conditions for this proposal. Mr. Mitchell moved that project A2002-0422 be approved for \$85,000 in Jessamine County Phase I Funds; Eddie Sellers seconded the motion. The motion passed without dissent.

Red Project Review Committee

Sam Moore reported for the Red Project Review Committee (PRC). Mr. Moore noted that the Red PRC is presenting five projects for funding consideration.

Mr. Moore presented application **A2002-0229**. The applicant, **Southern Kentucky Worm Growers Association**, requests \$10,000 of funds from the Kentucky Center for Agricultural Development and Entrepreneurship (KCADE). The funds will be used to undertake a market study to explore the market potential for vermiculture and vermicomposting in Kentucky. The study will focus on the following issues: 1) market potential for growing worms for resale; 2) market potential for vermicasting products, both solid vermicast and liquid extract; 3) market potential for vermiculture as a waste management tool on individual farms, as well as, with contract waste processing. A third party contracted by the Association will undertake the market study. Mr. Moore moved that project A2002-0229 be approved for \$10,000 in KCADE funds; Mike Slaughter seconded the motion. The motion passed without dissent.

Mr. Moore presented application **A2002-0435**. Wayne Hunt recused himself from the discussion and voting on this project. The applicant, **Commonwealth Agri-Energy, LLC**, requests \$3,000,000 of state Phase I Funds in the form of a supplemental interim-financing loan. These funds are in addition to the \$6.5 million previously committed in Phase I Funds (\$6.311 million state and \$189,000 county). This money will help Commonwealth Agri-Energy satisfy the bank criteria for equity in the amount of 50% of the project costs. These funds will be in the form of a loan, subordinate to CoBank, but to be repaid proportionately as CoBank is repaid. Security for the loan will be a second position lien on all assets of the company, as well as, a secondary assignment of funds coming from USDA's Bioenergy program. Mr. Moore moved that project A2002-0435 be approved for \$3,000,000 in state Phase I funds; the Chairman clarified that this was a loan; Larry Clay seconded the motion. The Chairman opened the floor for discussion.

Discussion:

Mr. Hack reviewed the terms and conditions of the project.

Eddie Sellers asked for a synopsis of what transpired/changed in the request. David Bratcher, Project Analyst, addressed the question. First, the concern was CoBank's need for equity. An additional concern was to make sure this was a stand-alone project.

Mr. Mitchell asked for a reminder of how many cooperative members and counties we involved with Commonwealth Agri-Energy, LLC. Mr. Bratcher responded: 2,300 farmers in 30+ counties.

Dr. Little asked what the projected opening date of the plant was going to be if the December 2003 date was to be extended. Mr. Bratcher deferred to Jimmy Doss, project representative, to answer. Mr. Doss said they are still projecting a December 2003 opening date.

With no more discussion, the Chairman called the question. The motion passed without dissent.

Mr. Moore presented application **A2002-0438**. The project received a high priority from McCracken County. The applicant, **McCracken County Conservation District**, requests \$2,000 of McCracken County Phase I Funds. The funds will assist in sponsoring a "Farm and Home Safety Day." Mr. Moore moved that project A2002-0438 be approved for \$2,000 of McCracken County Phase I Funds; Dr. Oran Little seconded the motion. The motion passed without dissent.

Mr. Moore presented application **A2002-0439**. The project received a high priority from Menifee County. The applicant, **Menifee County Beef Producers, Inc.**, requests \$30,532 in Menifee County Phase I Funds. The funds will buy a bail wrapper, post driver, hydraulic aerator, corral panels, hay probe and chain drag for shared-use by county farmers. Mr. Moore moved that application A2002-0439 be approved for \$30,352 of Menifee County Phase I Funds; Wayne Hunt seconded the motion. The Chairman opened the floor for discussion; Mr. Moore noted the conditions of the grant. With no more discussion, the Chairman called the question. The motion passed without dissent.

Mr. Moore presented application **A2002-0442**. The applicant, **Clay County Women in Agriculture Team**, requests \$2,500 in funds from the Kentucky Center for Agricultural Development & Entrepreneurship (KCADE). The funds will be used to supplement the costs of a two-day workshop on Dry Stone Restoration. Upon completion of the 2-day workshop, graduates will have acquired skills that command \$20 – 30 per hour wage, depending on skill level and experience. The committee recommended that a stipulation that only producers with a demonstrated economic need be eligible for cost-share funding. Mr. Moore moved that application A2002-0442 be approved for \$2,500 in KCADE funds; Eddie Sellers seconded the motion. The motion passed without dissent.

Review of Amendments³

Mr. Hack presented the memos for project amendments.

Mr. Hack presented a budget amendment for the Kentucky State Beekeepers Association's project (project A2001-0322). Sam Moore moved that the amendments to the Kentucky State Beekeepers Association budget be approved; Mike Slaughter seconded the motion. The motion passed without dissent.

Mr. Hack presented an amendment to the model Goat Diversification Program. The amendment would add purebred Boer goats as an eligible cost-share item under Section II Buck and/or Semen Purchase for the Improvement of the Goat Herd. Dr. Oran Little moved to amend the Goat Diversification Program to read "Bucks should be registered full-bloods or purebreds with permanent identification" under Section II; Larry Clay seconded the motion. The motion passed without dissent.

Mr. Hack presented a request from the Christian County Board of Education (project A2001-0665) that their terms be amended to allow equipment from the project be divided equally between Christian County High and Hopkinsville High. (The original terms of the project have all of the equipment going to Christian County High and the networking in Hopkinsville High.) Sam Moore moved that the terms of project A2001-0665 be amended to divide the equipment equally between Christian County High and Hopkinsville High; Smith Mitchell seconded the motion. The motion passed without dissent.

Mr. Hack noted that the memo regarding KentuckyVirtual.com is provided as an FYI and that no Board action is required.

Recommendations for No-Funding⁴

Mr. Hack presented projects A2002-0369, A2002-0379, A2002-0413, A2002-0421, A2002-0423, and A2002-0441 as projects recommend for no-funding by the project review committees. (Inaudible) moved that no funding be awarded to same; Sam Moore seconded the motion. The motion passed without dissent.

Closing Remarks

Mr. Hack thanked Board members for traveling to Princeton. He also asked guests that have not done so to sign-in for the record. Copies of articles from KFB newsletter related to ADF and agricultural diversification (5 articles on agricultural development projects) were passed out. Mr. Hack thanked Sam Moore and Farm Bureau for spreading the word of the good things going on with the Agricultural Development Fund. Mr. Hack distributed the balance fund sheet to the Board.

The Chairman recognized David Brame, President, Commonwealth Agri-Energy, LLC, who thanked the Board for consideration of their project.

³ Copies of amendment memos are on file with the Board Secretary.

⁴ Detailed list of projects for a no-funding recommendation listed in Appendix C.

The next meeting of the Kentucky Agricultural Development Board will convene at 10:00 a.m. on Friday, August 16, 2002 at Kentucky State Fair & Exposition Center, Louisville, Kentucky.

The meeting adjourned at 11:44 a.m. CDT.
